HISTORY & HERITAGE

Established in 1961, Upper Canada Village is a premier living-history destination, depicting rural life in English Canada circa 1866. With over forty meticulously preserved historical structures, including homes, mills, and workshops, many relocated before the St. Lawrence Seaway project, the village offers an immersive journey into the past.

Today, visiting Upper Canada Village is a captivating time-travel experience, transporting visitors to the 1860s. Authentic buildings and activities vividly bring the past to life, offering a glimpse into the daily lives of its inhabitants.
